## REDHAWKS-HOCKEY SCOUTING REPORT

Dylan has been a reliable defender at the Montreal Meltdown after a solid year in the GOJHL.

He has character and he likes to play the body one on one. He is not a bad skater, but he still has work to do. He uses his size well around his net and he is not afraid to sacrifice himself to block shots. He will have to improve his game with the puck, especially in transition.

A player who should be developing in Tier 2 ( JrA-etc ) next year. He also would also be a very solid invite for a major junior camp.
